Do it yourself installation?

\_\_\_ Yes \_\_\_ No

If "Yes," what's involved? \_\_\_\_\_

What tools and equipment are needed? \_\_\_\_\_

Do you have time to install it?

\_\_\_ Yes \_\_\_ No

**Caution!**

You must follow the manufacturer's instructions and use only the parts supplied with the ROPS and seat belt.

Otherwise the ROPS may not provide the full protection you need.

**Why Bother?**

- The one-time effort involved in getting a ROPS protects you and everyone who drives the tractor for the life of the tractor.
- Total cost of your ROPS ÷ 365 days = \$\_\_\_\_\_ payment per day for only one year. Where can you get cheaper life insurance for you and your loved ones for as many years as you use your tractor?
- If you are like other Kentucky farmers, the odds are 1 out of 9 that you will roll a tractor in your lifetime.
- Those odds of 1 out of 9 also apply to other people who drive your tractor.
- In a third of all cases, when a principal farm operator is severely injured or killed in a tractor overturn, the family farm is lost.
- The use of a ROPS and a seat belt is 99% effective in preventing death and serious injury in the event of a tractor overturn.

*The following financial institutions offer low interest rates to qualified farmers on a 1-year loan for purchase of a ROPS\*:*

The New Farmers National Bank of Glasgow  
701 Columbia Avenue, Glasgow, KY  
Telephone: 270-651-6141

South Central Bank  
208 S. Broadway, Glasgow, KY

Telephone: 270-651-7466

*\*Interest rates subject to change*

# How To Get a ROPS and Seat Belt on Your Tractor

**During a rollover,  
a ROPS and seat belt  
can be the difference**

***between life and death!***
