

How To Get a ROPS and Seat Belt on Your Tractor

ROPS stands for Rollover Protective Structure. It is a proven fact that during tractor rollovers, ROPS and seat belts save lives. Most tractors manufactured after the late 60s can be fitted with a ROPS for about \$500 to \$700, plus installation and shipping charges. The businesses listed want to help you protect yourself and your family from rollover injuries.

To get a ROPS & seat belt on your tractor just follow these six easy steps!

1. Write down the make, model, and year of your tractor.

Make _____
(company that manufactured)

Model _____
(model name or no.)

Year _____
(year manufactured)

2. Find your tractor on the following list.

John Deere

**AGCO Allis
Deutz Allis
Allis Chalmers
White Tractors
Minneapolis-Moline
Oliver
Cockshutt**

**Case
Case IH
International Harvester
David Brown**

**Ford
Ford New Holland
New Holland

Massey Ferguson**

3. Then call the dealer listed for that tractor.

Shelton Equipment Inc.
